

Stamping Guidelines

At DOLAV, every client can personalise their products. We offer different methods including Embossed and Hot Die Stamping, allowing you to give your products an indelible proof of ownership.

Personalising your products, will provide a clear owner identification and reduce the cost of loss.

General guidelines:

1. Please provide a clear image of the company's logo in a vector file.
2. Printing is available in 1 colour only.
3. The default print position is 1200mm side top left but you can contact our team to request a different location, if needed.
4. Size of lettering will be adjusted upon words to fit in the plate
5. Any cut outs in the logo will show the box colour
6. Perforated Dolavs have small plate area due to the holes.
7. Pallets have very limited space for letters only

Available Location for hot stamp:
