Recycling & Waste Management Solutions

One piece heavy duty injection Moulding

Withstands abuse TÜV SÜD tested

Three integral runners for safe tipping on fork lifts

Suitable for use with low level nuclear waste

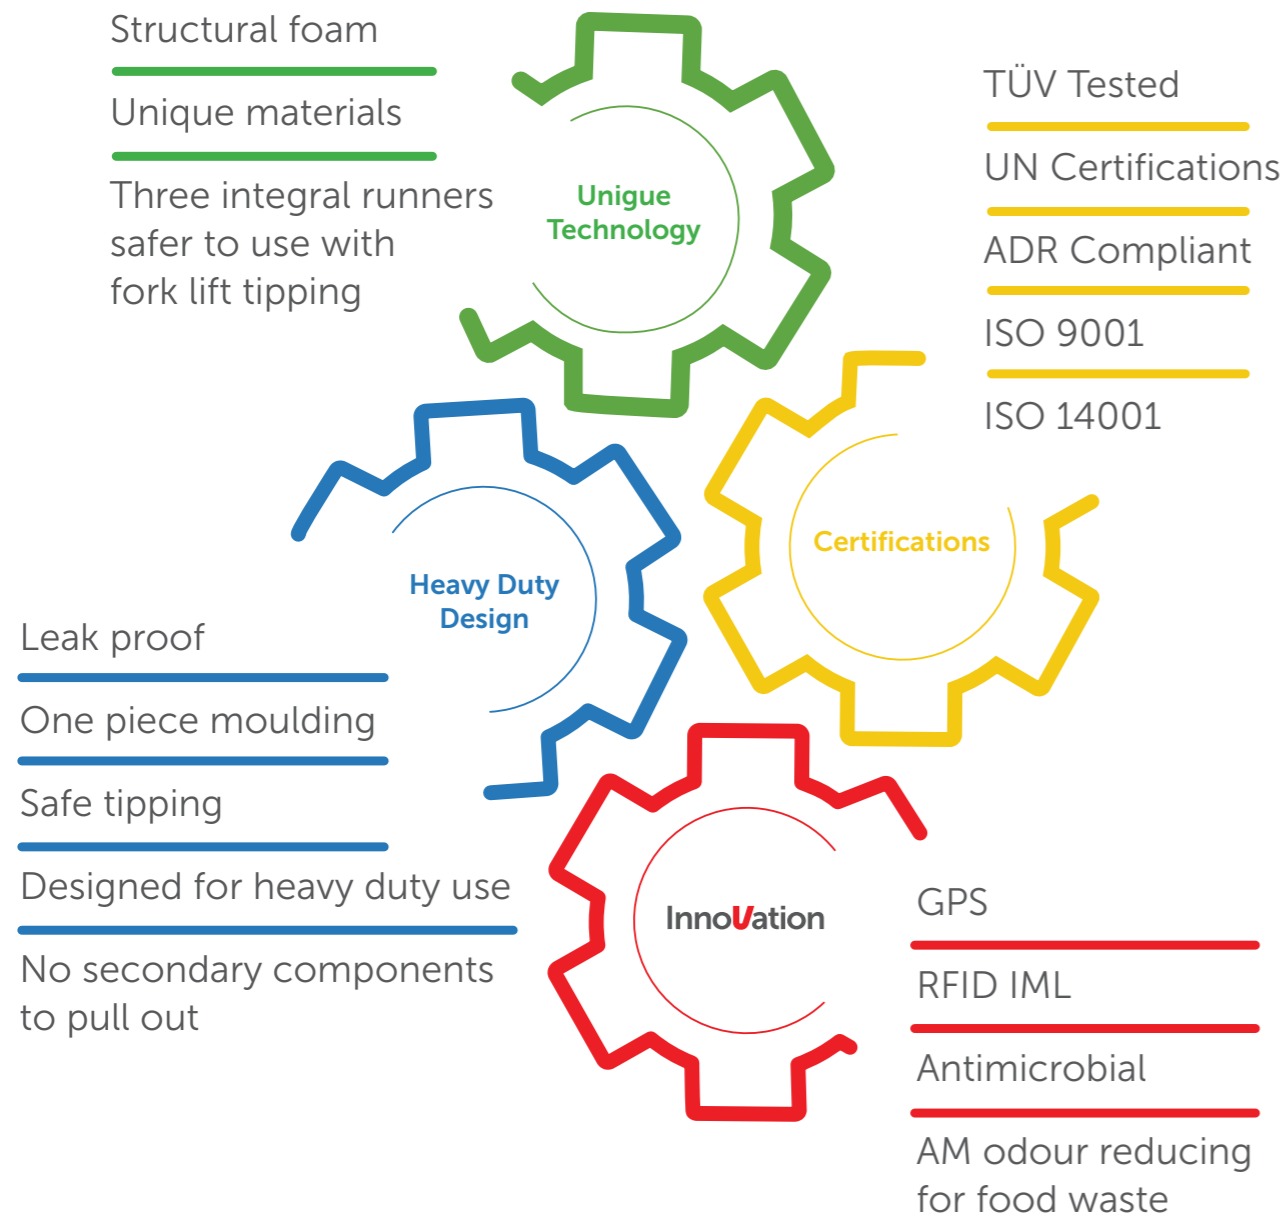

Superior handling & storage solutions

DOLAV® for the Recycling Industry

This industry requires smart solutions to manage and control the logistics chain. Through our innovative solutions, our clients rely on DOLAV® to deliver the latest products and designs to fit any need.

Using foam injection technology ensures our box pallets reach a longer lifespan than common high-pressure injection boxes. The durability of our boxes over time makes them particularly appealing for logistics companies that are compelled to streamline efficiency and save on costs. Our innovative solutions, including RFID IML tags, GPS/GPRS and tracking systems, place DOLAV® at the forefront of technology in providing cutting-edge solutions for controlling fleets of box pallets.

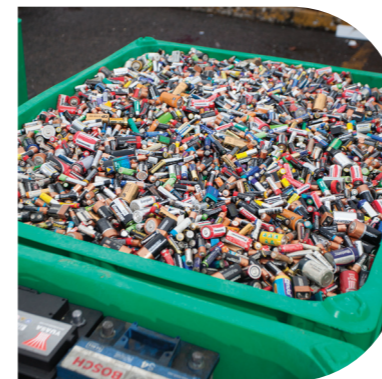

DOLAV® Advantages

Durability

- One piece leak proof moulding
- Material resistant to battery acid
- Stack load up to 5000kgs
- Designed for heavy duty use in a wide range of temperatures

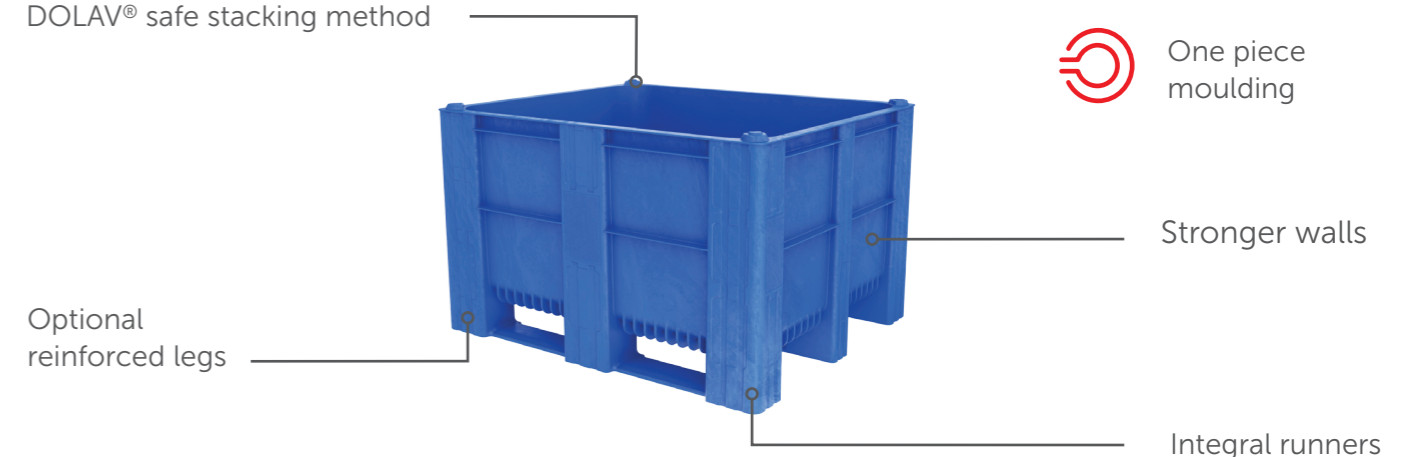

Heavy Duty Design

- Integral runners - safer tipping with heavy loads
- Unique material greater impact resistance
- Thick corner pillars resist crushing

Strength

DOLAV® safe stacking method

Products for Recycling and Waste Management

ACE 1000 | First choice in the market

- 3 Integral runners
- 4 Massive corners
- One piece moulding
- DOLAV® safe stacking method
- Ext Dimensions: 1200x1000x740 mm

Type 800 | Exceptional strength for transporting heavy products

- Integral runners
- Highly durable
- Ext. Dimensions: 1200x800x740 mm

UN certified boxes | Endless possibilities for your needs

- UN certified boxes
- Straps for safe handling
- Designed for dangerous goods handling
- Available in special dimensions
- Available in different colours

Alto 1400 | The biggest box pallet in the market

- Designed for handling bulky products for recycling
- Ext. Dimensions: 1300x1150x1250mm

ECOLINE | The perfect solution for high volume of light weight products

- Available in 3 different heights
- Integral runners
- Ideal for areas with narrow aisles
- Ext. Dimensions:
Ecoline 485: 1200X800X740mm
Ecoline 590: 1200X800X870mm
Ecoline 650: 1200X800X950mm

Customised solutions

- Tailor made solutions for customers' needs
- Extend or reduce height, length or width
- Available also for small quantities
- Personalised logo options
- Variety of accessories available

Why DOLAV®

■ DOLAV® Plastic Products specialises in the production of large volume products and it has become a leading global manufacturer by virtue of their distinctive structural foam injection technology and high quality products.

■ Strong and durable, DOLAV's products are recognized worldwide as the premier solution for storage, transport, warehousing and goods handling.

■ The recycling industry is known for its intense and damaging use of box pallets for transporting products. This demanding industry needs high impact resistance boxes which make DOLAV's boxes ideal for this market. DOLAV's boxes can be successfully used to transport batteries, electrical appliances, metal parts and glass fragments, food waste, recycled materials and much more...

■ Box pallets with integral runners provide great confidence upon tilting loaded boxes into the recycling system. DOLAV's boxes enjoy the most stringent UN certificates for the transport of hazardous materials, including low level radiation materials. Additionally, DOLAV® possesses the capability to manufacture custom sized box pallets transporting non-standard products such as fluorescent bulbs and lithium batteries.

Customisation

DOLAV® has a fully dedicated team to provide customised solutions for special demands. DOLAV® has the capability to produce custom boxes with different dimensions and accessories according to the client's request.

Additionally, DOLAV® has acquired vast experience in the design and implementation of special features to produce unique products according to the customer's requirements and today we are proud to lead big projects for the main companies in the field.
