

Data Sheet

Spill Containment Pallet -150 Liter

Technical Data of Spill Containment Pallet-150 Liter	
External Dim (mm)	1120 x 750 x 250 Length Width Height
Volume (Lt)	150
Cat #:600102	

All Dolav box pallets are manufactured by foam injection using high-density polyethylene (HDPE). The special technology results in box-pallets with unique high-impact strength, resistance to corrosion and UV stabilized. The HDPE material used by DOLAV in the production of its box pallets is inherently stable and the working temperature range is -40° to $+60^{\circ}$ C.

DOLAV® maintains a comprehensive Quality Assurance Program, as required by the Standards Institution of Israel and has earned the ISO 9001:2015 Certification.
