

Data Sheet

Spill Containment Pallet -4 horizontal barrels

Technical Data of Spill Containment Pallet- 4 horizontal barrels	
External Dim (mm)	1760 x 1200 x 1520 Length Width Height
Volume (Lt)	500
Cat #:53004061	

All Dolav box pallets are manufactured by foam injection using high-density polyethylene (HDPE). The special technology results in box-pallets with unique high-impact strength, resistance to corrosion and UV stabilized. The HDPE material used by DOLAV in the production of its box pallets is inherently stable and the working temperature range is -40° to $+60^{\circ}$ C.

DOLAV® maintains a comprehensive Quality Assurance Program, as required by the Standards Institution of Israel and has earned the ISO 9001:2015 Certification.
