

SMART FEATURES

Your company name, logo, and sequential numbers can be hot-stamped onto the box pallet

Antibacterial additive

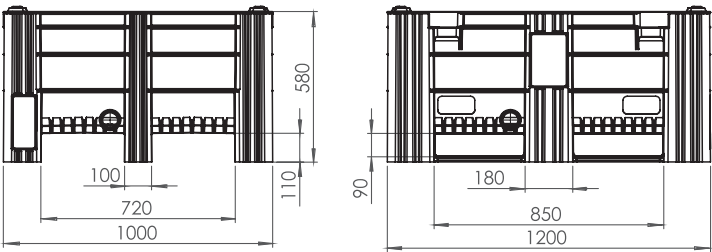

Detectable Material

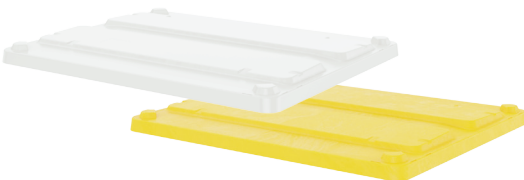

IML RFID tags

DIMENSIONS

Compatible with 1000 UNIVERSAL lids

	ACE 460 SOLID - 3 runners	ACE 460 PERFORATED - 3 runners
External dimensions (LxWxH) mm	1200x1000x580	1200x1000x580
Internal dimensions (LxWxH) mm	1128x928x440	1128x928x440
Volume (litre)	445	445
Tare weight (kg)	32.7	31.1
Max load (kg)	750 (Stand alone)	750 (Stand alone)
Max. stack load (kg)	4500	4500
Raw material	HDPE Structural Foam	
Temperature range	-40 °C up to +60 °C	
Quantity in container (units)	20'	40' hc
	40	108

- Due to deviations in the manufacturing process, tare weight may vary by $\pm 1.5\%$
- Dimensions may vary by $\pm 1\%$
- Data refers to temperature of 23°C
- Maximum load refers to standalone boxes

- Maximum stacking load refers to vertical loading when the load per single box pallet does not exceed 600 kg
- Also available with combination: solid walls + perforated base / perforated walls + solid base. Minimum order quantity applies.

Superior handling & storage solutions

ACE 460

SINGLE-WALL
BOX PALLETS for FISH

- SUPERIOR HYGIENE
- EASIER OPERATION
- BETTER COST/BENEFIT

LESS PLASTIC MORE FISH

MEET THE NEW STANDARD

Thanks to end-to-end refrigeration throughout the fish supply chain, double-walled insulated box pallets have become a thing of the past. With DOLAV’s ACE 460/600 series, fishing industries can transport more fish per box – at a manner that is at once cleaner, more profitable, and easier to maintain.

	Traditional double-walled tubs	DOLAV ACE 460/600	Our advantage
Weight	50/60kg	33/38kg	✓ Lighter
Foot Print	1244x1041mm	1200x1000mm	✓ More boxes / m²
Boxes per 40' HC container	80/60	88/66	✓ More boxes per shipment
Stacking height	4 boxes	8 boxes	✓ x2 stack count
Maintenance & repair	Specialized	Simple	✓ Operational savings
Tare weight in 40' HC container	4000/3000kg	2904/2541kg	✓ Less plastic – more fish!

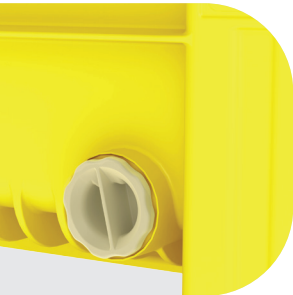

Perfectly re-designed for the fish industry

Easy Lifting

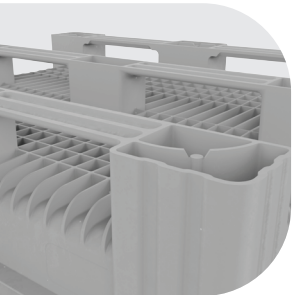

Built-in hoist grips for easy lifting using standard equipment *

Effective Drainage

Built-in 2" drainage ports with easy-to-remove caps **

Safe Tipping

3 integral runners – safer to rotate w/forklift ***

Color Options

*Optional
**Box pallets can be supplied with one or two drainage ports, or without a drainage port.
***Box pallets can be supplied with two or three integral runners.

EVERYTHING TO GAIN

Less plastic means more fish – and higher profit margins

At 66% of the weight of a roto-molding TUB, DOLAV’s ACE box pallet enables to carry a full 7% more fish per refrigeration truck – delivering direct impact to your bottom line.

Better Temperature Control

With the transition to a fully-refrigerated supply chain, the insulated TUB actually makes it more difficult to control transport temperature. DOLAV’s single-sided injection box provides more efficient cooling of the fish.

Lower risk of contamination

Double-walled TUBs are notoriously prone to contamination, with water seeping into cracks between the two walls and creating bacteria that fouls up the fish. DOLAV’s single-sided box pallets put a complete and total end to this scenario.

More boxes in cold storage

DOLAV’s ACE BP has a 93% footprint compared to traditional TUBs – meaning 245 more boxes (!) per 1000m³ of cold storage.

Cost-efficient AND profitable

Not only are DOLAV’s ACE box pallets far more affordable than roto-molded TUBs, but they contribute directly to the profitability of your operations. In other words, they allow you to both cut costs and achieve superior ROI.

Innovative ownership & usage models

For manufacturers seeking to streamline their operations with minimal disruption, DOLAV and its partners offer a flexible range of models for the use and ownership of our ACE box pallets. Contact your Dolav representative for details.
